

QURBAN ALI

Team Lead & Full Stack Developer | AI / RAG Application Developer

+92.322.1436408 • aliq30292@gmail.com • Lahore, Pakistan

PROFESSIONAL SUMMARY

Results-driven Team Lead and Senior Full Stack Developer with 6+ years of experience architecting and delivering production-grade web applications and AI/RAG-powered platforms. Proven track record leading cross-functional development teams through complete software delivery lifecycles — from sprint planning and system architecture through code reviews, production deployments, and client stakeholder communication.

Expert in PHP (Laravel), MERN, MEVN, and Python (FastAPI/Flask), with hands-on experience building RAG-based AI applications using LLM API integrations (OpenAI, Gemini, DeepSeek), embeddings, vector-based semantic search, and intelligent retrieval workflows. Currently leading TalentVista — an AI-powered aviation recruitment platform built on RAG architecture for LLM-based CV parsing, skills-based candidate screening, semantic matching, and role-specific recommendations.

TECHNICAL SKILLS

Backend	PHP, Laravel, Node.js, Express.js, Python, FastAPI, Flask
Frontend	React.js, Vue.js, JavaScript, HTML5, CSS3, Quasar Framework
Databases	MySQL, PostgreSQL, Supabase
DevOps	Linux, Nginx, Apache, Jenkins, GitHub, Git
AI / RAG	LLM APIs (OpenAI, Gemini, DeepSeek), Embeddings, Semantic Search, RAG Pipelines, Prompt Engineering, Vector Databases

WORK EXPERIENCE

Team Lead & Full Stack Developer – AI/RAG Applications

Friday Media Group Pakistan | Lahore, Pakistan

Jun 2022 – Present

- Lead a team of 6+ developers across multiple concurrent SaaS projects, conducting daily standups, sprint planning, and code reviews to maintain high code quality and on-time delivery.
- Architected and led development of TalentVista — a RAG-based AI recruitment platform integrating LLM APIs (OpenAI, Gemini, DeepSeek) for intelligent CV parsing, semantic candidate search, and role-specific recommendations.

- Designed and implemented scalable RESTful APIs and backend services using Laravel and Node.js, supporting complex business workflows across multiple client platforms.
- Mentored junior developers through pair programming, design pattern workshops, and structured code reviews, improving team velocity and output quality.
- Built and integrated LLM API workflows for document parsing, semantic search, vector embeddings generation, and AI-powered candidate matching and scoring systems.
- Managed production deployments on Linux servers using Nginx, GitHub CI/CD pipelines, and Jenkins for automated build and release processes.
- Collaborated with product owners and client stakeholders to define technical requirements, estimate deliverables, and align development milestones with business goals.
- Delivered multiple SaaS platforms in production: helloFriday (HR engagement), ToolsZip (productivity suite), and ZenBench (Zendesk automation platform).

Team Lead & Full Stack Developer | PHP (Laravel), MERN, MEVN

Catalytic Tech | Lahore, Pakistan

Aug 2020 – May 2022

- Led end-to-end delivery of multiple web applications using Laravel, Vue.js, and RESTful APIs — from requirements gathering and architecture through production deployment.
- Managed sprint ceremonies including planning, retrospectives, and daily standups, ensuring consistent delivery across a 4+ person development team.
- Developed IShopEco — an eco-friendly e-commerce platform using Quasar Framework (Vue.js) and a Laravel backend, with full product catalog, cart, checkout, and order management.
- Built GerDentUSA and GerVetUSA B2B e-commerce platforms for surgical instruments, featuring multi-category product catalogs, order workflows, and B2B customer account management.
- Implemented database query optimisation, caching strategies, and server-side rendering techniques to improve performance and scalability across all platforms.
- Conducted technical interviews, onboarded new team members, and enforced coding standards through documentation and structured peer reviews.

Junior Laravel Developer | PHP (Laravel), React JS

GerMedUSAIT | Lahore, Pakistan

Jan 2019 – Jul 2020

- Developed and maintained Laravel-based web applications, building RESTful APIs, Eloquent ORM models, and Blade-based frontend interfaces.
- Contributed to GerDentUSA and GerVetUSA e-commerce platforms, including product catalog, user management, and order processing modules.
- Collaborated on database schema design, migrations, and MySQL query optimisation for high-performance catalog and order operations.
- Gained hands-on experience with Git version control, Linux server management, and Nginx/Apache web server configuration for production deployments.

PROJECTS

TalentVista — RAG-Based AI Recruitment Platform

<https://talentvista.ai>

Role: Lead Full Stack Developer & AI/RAG Architect | **Stack:** Laravel, React.js, Python, FastAPI, OpenAI, Gemini, DeepSeek, MySQL

An AI-powered aviation recruitment platform built entirely on Retrieval-Augmented Generation (RAG) architecture. Integrates LLM APIs for intelligent hiring automation — no custom ML model training involved.

- **LLM-Based CV Parsing:** Extracts and structures aviation-specific skills, certifications, and experience from unstructured candidate documents using OpenAI / Gemini APIs.

- **Job Description Understanding:** Semantically interprets aviation job postings to identify required competencies, skills, and role-specific criteria via LLM APIs.
- **Embeddings & Semantic Search:** Generates vector embeddings of candidate profiles and job descriptions enabling high-accuracy similarity-based candidate retrieval.
- **Skills-Based Screening:** RAG retrieval pipelines rank and filter candidates by domain-specific skill alignment rather than simple keyword matching.
- **Matching Scores & Rankings:** Produces explainable match scores between job requirements and candidate profiles using LLM-powered retrieval and ranking logic.
- **Role-Specific Recommendations:** Delivers context-aware candidate recommendations for aviation roles: Pilot, Engineer, Cabin Crew, ATC, and more.

helloFriday — HR & Employee Engagement Platform

<https://www.hellofriday.io>

Role: Team Lead & Full Stack Developer | **Stack:** Laravel, React.js, MySQL, REST APIs, Linux / Nginx

A people-centric SaaS HR platform enabling organisations to build employee engagement programmes, pulse surveys, and performance management workflows for multiple client organisations.

- Multi-tenant SaaS architecture with role-based access control (RBAC) and organisation-level data isolation.
- Employee feedback, pulse survey, and engagement tracking modules with real-time analytics dashboards for HR managers.
- Third-party HR tool integrations; CI/CD deployment via Jenkins and GitHub on Linux / Nginx servers.

ZenBench — Zendesk Enhancement & Automation Platform

<https://www.zenbench.io>

Role: Full Stack Developer | **Stack:** Vue.js, Laravel, MySQL, Zendesk API

Enterprise platform extending Zendesk's native functionality with advanced automation, data management, custom object modelling, and a marketplace for reusable data model configurations.

- Custom Zendesk object modelling, automated data deduplication, and normalisation workflows.
- Advanced filtering, bulk operations, workflow automation tools, and a data model marketplace.

ToolsZip — Multi-Tool Online Productivity Suite

<https://toolszip.com>

Role: Full Stack Developer | **Stack:** Laravel, JavaScript, MySQL

Comprehensive web productivity suite offering PDF management, image converters, developer utilities, and SEO tools — optimised for high-performance simultaneous multi-tool usage.

IShopEco — Eco-Friendly E-Commerce Platform

<https://www.ishopeco.com>

Role: Full Stack Developer | **Stack:** Vue.js (Quasar Framework), Laravel, MySQL

E-commerce platform for eco-friendly products with a responsive Quasar / Vue.js frontend, full cart and checkout workflow, secure payment integration, and customer account management.

GerDentUSA & GerVetUSA — B2B Surgical Instrument E-Commerce

gerdentusa.com | gervetusa.com

Role: Junior Laravel Developer | **Stack:** PHP, Laravel, MySQL

Two B2B e-commerce platforms for German-forged surgical instruments: GerDentUSA (dental) and GerVetUSA (veterinary). Multi-category product catalogs, order tracking, and admin management built with Laravel and MySQL.

EDUCATION

Bachelor of Arts <i>University of the Punjab</i>	2019
Intermediate / A-Level — Computer Science, Mathematical Statistics, Mathematics <i>Government College of Sciences, Lahore</i>	2016
Matriculation / O-Level — Biology, Chemistry, Physical, Chemistry <i>Government High School</i>	2014
